

Seventeen Times (The Cell Phone Song)

By Tom Farley

E B7
I get out of bed with a thought in my head that'll carry me all through the day
E
Sometimes it's good, like every day should and sometimes it's too bad to say
A
When I feel alone I take my cell phone and push me a number or two
E B7 E
I don't really care, I just hate dead air....please answer on one ring or two

Chorus

A E B7 E
I'm callin' you seventeen times just to hear your voice on the line
A E B7 E
Please answer when you hear the chime....I'm callin' you seventeen times

Verse Instrumental

If I'm naked or dressed, if I'm cursed or I'm blessed my cell phone is right by my side
I tell all my friends all the places I've been I take'm along for the ride
I have tried face to face, but it just can't replace the sound of the beeps and the rings
The pictures and songs will last all day long....no end to the joy that it brings

Chorus
