## We're Mad As Hell and We're Not Gonna Take This Anymore by Tom Farley Come gather 'round Americans and lend yourself an ear I've got some words of protest that you might like to hear It's not the same old sorry song that makes us all feel sad And by the end I hope that you are really fighting mad Α I pay my taxes regular, don't make enough to cheat And the honesty I put to work is very hard to beat But it's awfully hard to get ahead when everyday you learn That the government is screwing you at nearly every turn Chorus Ε We're livin' in a country where the truth is hard to find Between the money and the politics we're about to lose our minds It's time to turn the tide and pick our butts up off the floor We're mad as hell and we're not gonna take this anymore Now let's take up religion, it's a whole new ball of wax They're building earthly empires without a cent of tax

So let's get Graham and Robertson and give those boys the biz

Give Caesar what is Caesar's and give God what is his

## Chorus
