

Lost Without a Sign

by Tom Farley

[Verse 1]

Every one has felt the pain of emptiness inside
The loneliness within your soul cannot be denied
A battered world of broken dreams tells you that you lied
Makes you need a place to hide

[Chorus]

When you're lost without a sign, your life seems like a forever
And every little day you burn, cause you feel you're going nowhere
The world does not revolve by fitting your design
Life looks brighter farther down the line

[Verse 2]

Melancholy solitude, silent undertow
Traces thoughts and memories that only you would know
Taking you into a place where only blind men go
Still you plant but fail to grow

[Chorus]

When you're lost without a sign, your life seems like a forever
And every little day you burn, cause you feel you're going nowhere
The world does not revolve by fitting your design
Life looks brighter farther down the line

[Instrumental]

[Verse 3]

Is there nothing left but memories to occupy your time?
I see a silent vacant look deep within your eyes
You paid the price and dance the dance, oh just the same as I
But still you sit and you wonder why

[Chorus]

When you're lost without a sign, your life seems like a forever
It's best to make up your mind that things are gonna get better
The world does not revolve by fitting your design
Life looks fine and farther down the line
