

This is the Place by Tom Farley

It don't mean nothin'

When you think of the places we have seen

It don't mean nothin'

If you can't make it in between

Chorus

I've been thinking a lot - Enjoying the fact

That we're gonna be ok

This is the place I want to be every day

You say that you love me

When all you can do is bring me pain

But you can be certain

I'll never let it happen again

Chorus

I've been thinking a lot - Enjoying the fact

That I'm gonna be ok

This is the place I want to be every day
